Navy Year 2000 Tracking System (NY2KTS)
Software Release Notes
Version 2.2.01
2 March 1999

Software Change Description:

SCR #:	Description of Change

99-22   Changed the Systems Information Program (Y2K01U1) to correct a problem which caused the program to perform validation on the Replacement System Name field when the user navigated to the last record in a Queried set of records.

99-23   Also corrected problem with decoding of the Replacement System Type, it did not identify all of the System Types (i.e.: Navy, USAF, Army, etc.) when reviewing the List of Values for the Replacement System Name.

99-24   Changed the Points of Contact (POC) Detail Information Window (VAL_POC_CODE) program so that it does not produce an error due to disabling the Client Server Version of the software.

99-25   Changed the Facilities & Infrastructure Data Upload Summary Report (ICD02R02) to only list the Activity UIC's in the List of Values for the Major Claimant being selected. If the Major Claimant is all (%) then all Activity UIC's are listed in the LOV box. Also changed the report format so that the Date/Time the report was generated appeared at the top of the report.

99-26   Changed the NY2KTS Main Menu version number to 2.2.01.

Modules Affected:

Y2K01U1
VAL_POC_CODE
RPT_MENU
PARAM_MENU7
ICD02R02
